

COLLECTION
STUDIO BERG

01/2026

STUDIO BERG creates sculptural objects that bring joy into everyday life.

The collections move between art and design, combining bold color with surprising details.

Inspiration often comes from simple moments—a striped sunshade, a creamy dessert, an old architectural shape—and is translated into playful, contemporary forms.

This catalogue brings together all five current collections: the Memphis-inspired **KNSTRKT** tableware, the architectural **FOLDWORK** wall objects, the playful **CANDY** glassware, the bold **VIIE VASES**, and the vibrant **JELLOS**.

Made from a range of materials, each series has its own story — but they all share a love for expressive objects, and a strong focus on color, form, and joyful details.

JELLO is a series of playful glass cloches inspired by traditional jelly desserts and antique pudding molds. Soft curves, baroque charm, and a palette of pinks bring these nostalgic forms into contemporary design.

Each piece is hand-blown into 100-year-old cast iron and copper molds and comes in five sizes and five shades—from rose milk to translucent blackberry.

Use them to cover sweets, hide small treasures, or simply as sculptural table accents.
