

WORKSHOP STOOL, 2009

Jerszy Seymour

The table and stool is a result of a series of exhibitions by Jerszy Seymour that explore the possibility of an “Amateur” society (meaning “lover”, “appassionato”).

By using polycaprolactone wax, both as a construction material and as a metaphor for the creative energy in all people, the exhibitions created functional situations as a platform to discuss the possibility of utopia.

Wood and melted polymers
