

CUMULIFORM TABLE LIGHT, 2016

Jochen Holz

The neon table light is a unique light sculpture made of free formed borosilicate glass tubing. Each one is one of its kind and part of a small edition. The form plays with the pure light emitted by the different rare gases, the undulating tube subtly manipulates the light, softening and intensifying it in turns.

Borosilicate glass and argon gas

L 35 x W 25 x H 60 cm
