

100° BARSTOOL, 2019

Tiago Almeida

To escape from the right angle, glorified by the modernists, Tiago decided to use a different point of departure. 100 degrees is the key measurement of this piece. It represents the most comfortable angle for the back support. It is also used to measure the angle of the cut for each different section of the chair. Thus, it becomes a leitmotif that unifies the structure of the whole piece.
