

**VIII VASES, 2018****Studio Berg**

VIII VASES are sets of archaic-looking vases. They come in sets of 1, 2, 3 and 6, in medium sized vases. They are hand-thrown on a potter's wheel and therefore each has its unique personality. The vases are unglazed (on the outside) so their design varies just through the use of different kinds of clays and the individuality of the potters hands.

VIII Vases are designed in Berlin and handmade in Denmark in the little town Vig in Sjælland.
